## End of Course Assessment

Dates Certifier

1. A 2-month-old infant is dropped off in the morning. You notice right away that her eyes aren't focusing and she doesn't seem like herself. Her mother seems upset and says, "She fell off the couch. She's fine." You don't think she is fine. What should you do?

2. Name the five protective factors that can strengthen families and help prevent child abuse and neglect.

3. Choose one of the five protective factors and discuss how you can use it to manage your own stress level.

Parental resilience: Knowledge of child development and parenting: Social connections: Concrete support in times of need: Social and emotional competence of children:

4.	Name two ways you can build your own resilience and take care of yourself
5.	What does it mean to be a mandated reporter of child abuse and neglect?
6.	Darius's mom seems nervous when she drops Darius off and picks him up at the end of the day. You know that she has been taking some parenting classes and has been assigned a case worker through Child Protective Services. What can you do to support Darius and his mom?
7.	Name at least three possible signs of child abuse in an infant.

DISA

8.	8. Name two possible signs of each type of child abuse or neglect in a school-age child. Physical Abuse: Sexual Abuse: Emotional Abuse: Neglect:		
9.	A boy rolls up his sleeve to play in a tub of water set out in the backyard. When he does so, he tenses in pain. You see what looks like a bite mark on his arm. Concerned, you ask what happened. He replies, "I bit my brother, so mom bit me back." What should you do?		
10.	How do you make a report of child abuse or neglect? Describe specific procedures for your installation or state. Include information about who you call and/or notify.		
	•		
11.	List information you may be required to give when you report possible child abuse or neglect.		

12,	. List the discipline procedures that are never acceptable in your program.		
13.	You are nervous about making a report of child abuse. What should you remember about reporting abuse that you learned in this lesson that will help you keep children safe?		
14.	A parent asks what procedures your program has put into place to prevent child abuse and neglect. What do you say?		
15.	Twelve-month-old Cheyann has been crying most of the morning. Jenny, a family child care provider, picks up Cheyann roughly, shakes her, and says, "Quit crying! You are so spoiled!" Is this an example of child abuse or inappropriate caregiving practices? Give rationale for your response.		

16.	A fight broke out between two children in Katrina's family child care program, and one child suffered a broken arm. Katrina said, "I let them sort it out. That's the best way to teach them." Is this an example of abuse/neglect or inappropriate caregiving practices? Give rationale for your response.
17.	Kayla is a ten-year-old in your program. Write a scenario that will cause the reader to suspect there could be possible abuse going on at home.
