All of your military training and submitted civilian courses will appear on the left.

The credits for each course is listed in the middle section. Codes indicating credit applicability and dispersion are also in this section. See legend at the bottom.

22 Dec 2021	EASTFIELD COLLEGE	10.00		
EDUC1300	LEARNING FRAMEWORK	3.00		-
HDEV100	EDUCATIONAL ALTERNATIVES	1.00		-

There could be several reasons why there might be blank spaces, where credit was not applied. 1. You have completed the requirement for the area(s) where that credit could apply. 2. The course was evaluated by CCAF and was found "Not Acceptable" for credit (check the Civilian Course Conversion Table). 3. The course has not yet been evaluated for credit by CCAF (not listed on the CivCCT). If you would like it to be evaluated, obtain the syllabus from the school, send it to the education office at education3@us.af.mil, and we will message CCAF on your behalf. 4. Computer error. Contact the Education Office if you have questions.

The Tech area requires 24 credits and is training for your AFSC – tech school, upgrade training, etc. Some civilian classes can count toward Tech Electives.

LMMS is Leadership, Management, and Military Studies and you need 6 credits. BMT, ALS, NCOA give credits towards this. Civilian management classes and CLEP/DSST exams also apply.

Program Electives is the "everything" category and you need 15 credits. Any class that is acceptable for any area of your CCAF will apply here. (Air Force training, natural science, computer science, math, etc.) Check the Civilian Course Conversion Table to make sure the class will count.

The Communication area requires 6 credits. If you are in the 2017 catalog you can have 2 English classes or 1 English and 1 speech. If you are in the 2022 catalog you **must** have 1 English and 1 Speech class.

The Math requirement requires 3 credits or one class. This should be a College Math or higher. Check the Civilian Course Conversion Table (CivCCT) to be certain that your class counts.

The Social Science area requires 3 credits. Possible classes include history, psychology, sociology, etc.

The Humanities area requires 3 credits. Possible classes include foreign language, art, ethics, philosophy, etc.
