

# Student Programs

## Child & Youth Education Specialist - School Liaison

MCEC Student Programs partner with schools and their communities by providing students with tools to thrive and succeed in becoming college, career, and life-ready.

### Student 2 Student®

*Student 2 Student*® (S2S™) is a student-led program that brings military-connected and civilian students together to welcome new students, create a positive environment, support academic excellence, and ease transitions as students enter or leave schools. S2S is supervised by a faculty advisor and is designed for high school students.

### Junior Student 2 Student®

*Junior Student 2 Student*® (JS2S™) mirrors the S2S platform and is designed for middle school students.

### Elementary Student 2 Student™

*Elementary Student 2 Student*™ (eS2S™) is a faculty-led, student-driven version of S2S designed and developmentally-appropriate for elementary school students.

#### S2S Program Themes:

- Academics
- Finding the Way
- Relationships
- 100% Acceptance
- Leadership and Service

#### Frances Hesselbein Student Leadership Program

*Frances Hesselbein Student Leadership Program (FHSLP)* offers an intensive experience for selected S2S students to enrich their leadership and civic responsibility skills during a week-long adventure at the United States Military Academy or United States Air Force Academy. Through personal, small group experiences led by the MCEC and Academy faculty and cadets, students gain confidence, competence, and commitment and return to their campuses ready to share with fellow students.

**MCEC® Student Programs Prepare Students to Emerge as Peer Leaders!**
