## General Information

### Introduction

Children of military members attend school in the school district where they reside: Charleston, Dorchester II, or Berkeley. Districts provide a full range of K-12 educational programs, i.e., Career & Technical Education, traditional academic programs, athletics, classes for gifted students and students with special needs. There is also a wide array of magnet, charter, virtual, and private schools available in the area. School starts in mid- August and ends early June for most schools.

### South Carolina Public Schools

Public schools are operated at the county level under the South Carolina Department of Education. Statewide test results, and overall school quality, can vary significantly from school to school within each district. It is recommended you look at the individual report cards, and visit each campus, as you make your housing decision.

- Test Scores: <https://ed.sc.gov/data/test-scores/>
- School Report Cards & Comparison Tool: <https://screportcards.com>
- State Standards (Family Friendly): <https://www.state.sc.us/eoc/index.htm>

### Attendance Policies/Look up Attendance Zones

According to state law, students attend assigned public schools within their district of residence. If in doubt, call the district or the School Liaison Office. There are charter schools (Pg. 10) that draw from all areas of the state regardless of residence.

### Immunizations

The Medical Clinics will assist you with proper immunizations for South Carolina. Call: 843-963-6719 for the AB, or 843-794-6850 at the WS. They will assist you with updates and proper documentation of immunizations.

### Impact Aid

Since 1950, Congress has provided financial assistance to Local Education Agencies (LEA) through the Impact Aid Program. The purpose is to disburse payments to the LEAs that are financially burdened by Federal activities, including lost property tax revenue due to tax exempt federal property and the increased expenditures due to the enrollment of federally connected children in their district. (See Supplemental)

## **New Student Registration: Tips for Changing to a New School**

Get an "unofficial" copy of transcripts/records to hand carry. This will help ensure proper placement at the new school in case your official records are delayed. You are authorized to carry this "unofficial" copy under terms of the Military Children's Interstate Compact referenced on Page 4.

High school students should work with guidance at the receiving school as early as possible. Find out all you can about the courses you are going to sign up for at the new school. Bring a copy of your previous high school course syllabi, or a copy of your textbook's Table of Contents. Algebra II may cover different material at your new school, don't wait for an unpleasant surprise.

Register Online with the three public school districts. Upload all required documentation and complete the registration process with the school upon arrival. Private and charter schools may have differing enrollment policies, so check with them directly.

### **Documentation**

Provide the following documents to the school at the time of registration:

- Student's Birth Certificate
- Proof of residence (normally two sources)
- Unofficial Copy of school records from previous school if available
- Current Special Education records (IEP/504) if applicable
- Proof of guardianship, if applicable

### **Enrollment (Age Requirements/Pre-K)**

Children who will be five years old on or before 1 Sep must register for kindergarten. Children who will be four years old on or before 1 Sep may be eligible for pre-school, but strict guidelines may apply. Contact the school in your attendance zone for available slots and requirements for eligibility to attend. According to South Carolina Law, school-aged children must be transferred/enrolled in school within 10 days of arrival.

### **South Carolina High School Diploma Requirements**

Visit the South Carolina Department of Education for diploma requirements: <http://ed.sc.gov/agency/programs-services/124/index.cfm>

### **Special Education**

Contact South Carolina's Office of Exceptional Children at 1-866-628-0910 or visit <https://ed.sc.gov/districts-schools/special-education-services/>. The Joint Base Charleston Exceptional Family Member Program (EFMP) Coordinator can be reached at 843-963-4406 and can assist with the special educational needs of your children.

- APPLY EARLY ONCE YOU HAVE ORDERS
- YOU MAY APPLY IN THE REGULAR LOTTERY SEASON JANUARY-FEBRUARY

# A MILITARY FAMILY'S GUIDE TO SCHOOL TRANSITIONS

Moving to a new post can spark anxiety in military families over the quality of the schools in and around a military installation. But families with children in preschool through high school can take certain actions to mitigate these concerns and help their children transition effectively to a new school. This guide has been compiled by military spouses with decades of experience in an effort to help simplify that process.

## ORGANIZE SCHOOL RECORDS

Have at least an unofficial copy of your child's school records as well as report cards. While the receiving school district will make the request for the transfer of your child's official records, unofficial copies will give you some material to work with when discussing your child's placements in the new school. Don't forget a copy of your child's birth certificate and immunization records.

**Be sure to inform schools of your military-connected status when filling out enrollment forms!**

## COMPILE SCHOOL CONTACT INFORMATION

For older students, especially high school students, compile contact information for teachers and coaches at the previous school who might be future references for your child.

## FAMILIARIZE YOURSELF WITH THE SCHOOL CURRICULUM

Each curriculum has its own focus, style, and methodology, so becoming familiar with the curriculum that your child has been involved with can prove helpful in making school choices. You can often make efficient comparisons with the new school's program knowing what reading, math, science, and social studies curricula were used. Write down the names of the books that your child used in his or her last school as a starting point.

## KNOW YOUR CHILD'S INTERESTS

Have a list of your child's extracurricular activities and interests — including sports and level of participation, volunteer commitments, and hobbies. Be aware of new activities that your child might want to participate in, as well as athletics tryout eligibility requirements — especially if transferring mid-season. This information helps to round out the picture of your child that you present as a new member of this school community.

## CONNECT WITH SCHOOL LIAISONS

School liaisons at the military installation serve as a clearinghouse for information about the schools on and near bases, and the services and programs offered in them. Meeting with them should be the first step for all transitioning parents, as they are the subject matter experts on education. It is their job to assist you in best understanding your new installation and the educational offerings it provides and supports — both inside and outside of the gates.

CONTINUED ON PAGE 2

## GET TO KNOW YOUR LOCAL SCHOOL BOARD

Follow local school board members in the region where you are moving. Use local newspapers and district websites to become aware of their objectives, student outcomes, and performance goals prior to your arrival. Know when they hold public meetings. Many school boards now include a military representative, who can be another great resource.

## MEET WITH A SCHOOL'S SPECIAL NEEDS DIRECTOR

If you have a child with an active Individualized Education Program (IEP), consider communicating with the district's Special Education Director to identify where services that your child may use are provided. Even schools in close proximity to one another can vary significantly in the availability of special education services. District staff can provide the most complete picture of their offerings and locations. A copy of your child's current IEP provides the receiving district with facts about your child's current services and your expectations. This can expedite continued support for your child upon arrival, especially for mid-year transitions. Bases also offer supports through the Exceptional Family Member Program (EFMP). Be sure to reach out to the EFMP Coordinator at your new base before moving to get connected.

## GET FAMILIAR WITH THE INTERSTATE COMPACT

The Interstate Compact on Educational Opportunity for Military Children addresses key educational transition issues encountered by military families including enrollment, placement, attendance, eligibility, and graduation. While the compact "levels the playing field" for students, it's not intended to impact curriculum or local standards of education. To resolve compact-related concerns, families should first work with the school and military school liaison officer — or contact their state commissioner if additional assistance is needed. Visit [www.mic3.net](http://www.mic3.net) for more information.

## TAKE ADVANTAGE OF THE PLETHORA OF MILITARY PARENT RESOURCES

Several key organizations provide information and insight about transitioning from one post to another and how to mitigate the impact on your child's school experience, including Military Families for High Standards, Military Child Education Coalition, the Military Interstate Children's Compact Commission, National Military Family Association, and ZERO TO THREE. Visit their websites and read their publications for more information, and get in touch if you have questions.

Each child is as unique as each family's experience. But remember, you are not alone. Military spouses at the new installation or spouses who have recently lived at that particular base have learned the ins and outs of that location and are often happy to share their experiences.

## Homeschool Fact Sheet (Cont'd)

Many parents who home school in South Carolina choose Option 3 because it allows more flexibility, particularly in the area of curriculum selection. Option 3 requires affiliation with an accountability association. An accountability association is an organization operated by home schoolers that provides a means of legal compliance for its members under SC home school statutes 59-65-45 (SCAIHS) and 59-65-47 (all others). Each organization has its own policies and membership fees. Here are a few that our families use:

- Grace Home School Association: <http://gracehomeschools.org/>
- Carolina Homeschooler: <http://www.carolinahomeschooler.com/>
- Homeward Education Association: <http://www.homewarded.com/>
- South Carolina Association of Independent Home Schools: <http://www.schomeschooling.com>
- At Home In The Lowcountry Association: <http://www.athomeinthelowcountry.com/>
- PACESC: [www.pacesc.com](http://www.pacesc.com)
- Half Moon Homeschool Association: [www.halfmoonhomeschool.com](http://www.halfmoonhomeschool.com)
- Complete associations list: [ed.sc.gov/districts-schools/state-accountability/home-schooling](http://ed.sc.gov/districts-schools/state-accountability/home-schooling)

**NOTE - You MUST be covered by a legal accountability association within 10 days of the beginning of school in your school district or your children will be considered truant.**

Although not required, affiliation with a support group is a good idea, particularly for those new to home schooling. With over 400 members, a popular support group in the Tri-County area is the Lowcountry Christian Home Educators Association: [lchea20-21.wixsite.com/resources](http://lchea20-21.wixsite.com/resources). Parents can find lots of valuable home school information, resources and support.

## FAQ on Impact Aid For Parents

### 1. What is Impact Aid?

Impact Aid is a Federal education program that reimburses school districts for the lost revenue and additional costs associated with the presence of nontaxable Federal property, such as military installations; Indian Trust or Treaty lands; Federal low-rent housing facilities; and national laboratories, national parks and other Federal buildings or lands. There are more than 1,200 federally impacted school districts (those districts that receive Impact Aid) located across all 50 states. Together, they educate more than 10 million public school students.

### 2. How are federally impacted school districts different from other public school districts?

Most public school districts are funded in large part by local revenue – primarily a combination of local property taxes on homes and businesses or other local fees. School financing is limited for federally impacted school districts because Federal property – and housing, businesses, and other facilities located on Federal property – are tax exempt. This means that, unlike other types of property, the Federal government's land does not contribute to the costs of running a school district.

### 3. Who are federally connected students?

Federally connected students are those who have a parent or guardian on active duty in the military; live on Indian lands, in Federal low-income housing or other federally owned property; or live with a parent or guardian who works on Federal property. More than 80 percent of military-connected and American Indian students attend public schools. A school district can receive Impact Aid funding if it has at least 400 federally connected students in its Average Daily Attendance (ADA), or at least 3% of all children in its ADA are federally connected. The number and percentage of federally connected students in a district is a critical factor in determining how much Impact Aid funding that district receives.

### 4. Why is Impact Aid directed toward the school district and not individual families, schools or Tribes?

Impact Aid takes the place of revenue that a community would otherwise generate through property, income and sales taxes. Therefore, it goes into a school district's operating fund and is used to support *all* students in the district, just like other local tax revenue.

### 5. How do school districts use Impact Aid funds?

Impact Aid can be used for any general fund purpose, such as instructional materials, teacher salaries, transportation, technology, social-emotional supports or facilities. All decisions on how Impact Aid funds are spent are made locally. This flexibility and local control allows school district leaders to target funds supporting all students wherever the needs are greatest.

**6. What information does the school district need to collect from parents, and why?**

For a school district to receive Impact Aid, the Federal government requires it to collect specific information to verify its federally connected students. For each student, this information includes both enrollment information (such as name, birth date and school) and residence and parent employment information (including, but not limited to, student address if on Federal property; name and address of the Federal property on which a parent is employed; and name, rank and branch of service of a parent who is a member of the uniformed services on active duty). The form must be signed and dated by the parent supplying the information.

**7. How is this information shared and protected?**

Information on the form is used only for purposes of submitting the Impact Aid application. It is subject to a school district's student privacy policy, as well as Federal and state laws protecting the privacy of students and families.

**8. Why do I have to complete these forms every year?**

Since enrollment changes from year to year, the Federal government requires school districts to count students every year before it allocates Impact Aid funding. It is critical that survey forms are filled out completely and signed, or the student may not be recognized as federally connected (which means less money for the school district!).

**9. Does my school district receive all the Impact Aid funding it is due?**

No. Funding must be approved annually by Congress. Because of limited Federal funding and competing interests, Impact Aid has not been fully funded since 1969. On average, school districts receive about 55% of what they're due.

**10. How much of my school district's budget is made up of Impact Aid?**

It depends on your community and its level of impaction. Impact Aid funding can range from a fraction of a percent to more than 50 percent of a school district's budget, as some federally impacted school districts are located entirely on Federal property or have as few as three taxpayers.

**11. What can I do to support Impact Aid?**

Be sure to complete all Impact Aid survey forms in their entirety to ensure it gets the funding it deserves. If you hear other parents questioning why they need to fill out the forms, let them know how important it is to their local school.
