

Air Quality for sports.

As a parent it is up to you to make the determination if the air quality is not feasible for your child. The Coaches will also make a determination dependent on their thoughts for that specific time. No child will be disadvantaged or eliminated from games if they do not practice.

Everyone Plays – Any eligible child can register and be assigned to a team, regardless of athletic ability. No registered child is ever excluded from participation!

Reference Osan Air Quality Index information guide to make your determination that best suites yours child's needs.
