

Snakes on Scott AFB

If you see a snake in the Scott Lake Recreation Area, please keep your distance. Illinois has many different species of snake that are native to the area, both venomous and non-venomous.

If the snake appears non-aggressive, leave it alone and keep children and pets away from the area.

If the snake is in a populated area, is aggressive, or is identified as a venomous species, contact CE (256-2202) for removal. Monitor the location of the snake from a safe distance until CE arrives.
